

# ONSITE WASTEWATER TREATMENT SYSTEM PUMPING GUIDELINES

---

In order to protect public health and safety, each Onsite Wastewater Treatment System (OWTS) is required to be pumped and capped, and have risers and covers installed by a City-Registered OWTS Inspector, no later than *June 30, 2025*.

## THE FOLLOWING ACTIONS ARE REQUIRED:

- Schedule an appointment with City-registered OWTS practitioner: [MalibuCity.org/Practitioners](https://MalibuCity.org/Practitioners)
- Provide pumping ticket and photos of capped tank(s) to the City via email [econsultant@malibucity.org](mailto:econsultant@malibucity.org)
- If the tank is destroyed/damaged, please visit the Building Safety Public Counter for permit issuance and next steps.

For any questions regarding guideline requirements, please contact Environmental Consultant at [econsultant@malibucity.org](mailto:econsultant@malibucity.org).

*Adjustments to this policy may be required by the Building Official on a case-by-case basis.*
