

Community Development Director Bundy and Assistant Director Eaton met with 16 local design professionals, along with Mayor Riggins and Councilmember Conrad, to share key updates on post-fire rebuilding efforts.

The meeting covered fire rebuild permit progress, an overview of upcoming FEMA and rebuild workshops, and important reminders for beachfront properties. Staff also shared updates on building code standards following Governor's Executive Order N-37-25, as well as common issues currently being observed in beachfront rebuild projects.

The discussion concluded with a preview of upcoming workshops and resources to support property owners and design professionals through the rebuild process.
